

# **SAME-DAY SERVICE PILOT EXTENDED**

*now with fewer trip restrictions*

In the Summer of 2022, TransNet was selected by the Pennsylvania Department of Transportation (PennDOT) to participate in a pilot program designed to assess the feasibility and value of providing same-day service options to Senior Shared Ride participants (65+) and those registered for the Persons with Disabilities (PwD) program.

We are happy to announce that pilot has been very favorably received and will be extended through June, 2023. In addition, TransNet will be expanding same-day service hours and reducing the one-way premium for the duration of the pilot.

- Same-day service can now be requested Monday - Friday during TransNet's standard reservation hours [8:00 am - 3:30 pm).
- All same-day trip requests will be evaluated on a case-by-case basis and approval is subject to factors such as distance and available capacity.
- A \$1 premium will be added to standard, one-way fares for same-day service.

If you would like more information or are ready to schedule a trip, please call TransNet at **215-542-7433** and ask to speak to someone about same-day service.
