

## WHO ARE WE?

Suburban Transit Network, Inc., (TransNet), is a private, non-profit company staffed with the area's most experienced transportation professionals and resources.

Since 1980, TransNet has delivered responsive, high-quality community transportation, connecting people to their destinations in a timely, efficient and cost-effective way.

In communities throughout the country, commuting has become more expensive, stressful and longer. Commuters are spending more time stuck in traffic, which means less productive time at their jobs and less valuable time with their families.

Using TransNet and giving commuters a choice of transportation mode, employers and other entities can attract more consumers and retain employees, where everyone benefits.

Our services help your company **Go Green** and let your students and employees reduce their environmental footprint.

## NEEDS ASSESSMENT

TransNet will meet with your staff to ascertain your company’s specific needs. Our experts will determine what is the most cost effective way to achieve your transportation goals.

**At no cost to you**, TransNet also offers potential contractors a survey to determine the usage and timetables. This short online survey is easily accessible for your employees to fill out and submit to us. TransNet will compile the information and share the results.

## CUSTOMIZED TRANSPORTATION PLAN

TransNet creates a solution tailored to meet your transportation needs. Our plan will detail the number and type of vehicles involved, scheduling and operation recommendations, along with costs and cost-saving options.

## IMPLEMENTATION

It’s simple. We do all the work. Our fleet of vehicles will go when and where you need them, allowing you to offer outstanding transportation options to your employees and customers.
