

Inclement Weather Safety Tips for TransNet Riders

- Don't Rush! Plan ahead and allow extra time to arrive at pick-up points
- Dress appropriately and wear slip-resistant footwear when possible
- Be on the lookout for icy, snow-covered, or uneven pavement.
- In areas covered with snow & ice or blocked by a snow bank, wait on the sidewalk, at cleared driveway, or nearby corner. DO NOT wait in the street.
- Be aware of the gap between the curb and vehicle.
- Use handrails when entering and exiting the vehicle. TransNet vehicles feature non-slip floors but extra caution is always encouraged.

- Stand far away from the curb until the vehicle has come to a full stop.
- Stand clear of the doors so they have safe, sufficient room to open.
- Allow those exiting the vehicle to go first - then board safely.
- Keep vehicle aisles clear of personal item.
- Refrain from putting wet items on seats.
- If traveling with an escort, allow them to assist you when navigating potentially dangerous walkways and stairs.
- When exiting, be sure to take all belongings with you and move a safe distance from the vehicle as quickly as possible.
- When entering your destination, keep in mind that your footwear may be wet and floor surfaces may be slippery.
- Keep your mobile device charged and accessible in the event of an emergency.
